

# AUTOMATIC BREAD BASKET LOADING

High production demand in the bakery industry has led to the need for more robust solutions to keep pace while keeping operating costs down.

Responding to this ever changing demand has led to the design and development of Xpect Solutions high speed Automatic Bread Basket Loading System.

**This system consists of:**

- Dual lane infeed product staging conveyors
- Basket infeed, outfeed and staging conveyors
- A fanuc six axis high speed robot
- Custom vacuum pick tooling
- Complete safety system

This system is fully automatic and is capable of loading multiple size products in multiple configurations into waiting pre-staged baskets at starting speeds of 144 loafs per minute.

**Pre-packaged products include:**

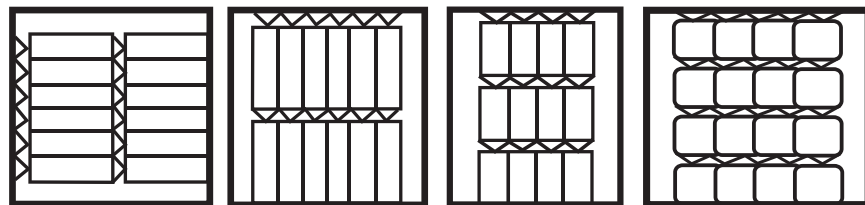

- Bread
- Hot dog buns
- Hamburger buns
- Muffins
- Even frozen cakes

Xpect Solutions offers a full line of solutions and product lines to suit each customer's special requirements. The flexibility of this product is geared toward the ever changing demand of the consumer marketplace while reducing direct labor costs, medical expenses and improving efficiency.
