

CHOCOLATE PACKAGING WORKCELLS

In today's competitive marketplace, manually loading assorted confections into blister trays is slow and labor intensive.

Today's marketplace requires manufactures to produce higher quality and higher volumes in shorter time-frames, while keeping costs to a minimum.

To help manufactures gain an edge on their competition, Xpect Solutions has developed the new MINI CHOC-CO-PACK packaging workcell.

By using the latest technology in flexible robotic automation, Xpect Solutions can now offer complete systems that are smaller, faster and less expensive.

Xpect Solutions is a manufacturer of custom and semi-custom automation systems. Xpect Solutions offers a full line of solutions and product lines to suit each customer's special requirements. The flexibility of this system is geared toward the ever-changing demand of the marketplace while reducing costs and improving efficiency.

Send us a sample of your product for evaluation or contact Xpect Solutions to review your complete application today.

Features

- Mini series requires less than 4'x 4' of floor space with work envelopes from 125mm-350mm
- Robots supplied by Yamaha
- Simple operator interface
- Capable of multiple product selections
- No damage product pick-up
- Single pick/single place
- Product infeed conveyor
- Blister pack infeed conveyor
- Full safety system

Options/Upgrades

- Vision system
- Multiple system connections
- Multiple pick/multiple place
