

# CONTROL PANEL ASSEMBLY SOLUTIONS

As automation and control professionals, Xpect Solutions offers years of experience and expertise in the design, fabrication and final assembly of electrical and pneumatic control panels.

We can work with you to help design a complete control package tailored to your specific requirements, finalize your design to your specifications, or just build to print.

From simplistic junction boxes to large PLC control cabinets or special one-of-a-kind operator stations, we can meet your fabrication and assembly needs.

Whether your requirements involve short or long run contract assemblies, mechanical, electronic or Electro-mechanical, Xpect Solutions has the qualified personnel to get it done.

Xpect Solutions offers a full line of product lines and services to suit each customer's special requirements. The flexibility of this service is geared toward the ever-changing demand of the consumer marketplace, reducing direct labor costs while improving efficiency and providing quality service and solutions.
